Traffic Safety a Priority for Hansberger

On Tuesday, the Board of Supervisors voted to install a stop sign on Alpine Lane at the intersection of Rose Lane in the Twin Peaks area based on recommendations from the Department of Public Works.

“The view obstructions at this intersection pose a public safety hazard,” said Third District Supervisor Dennis Hansberger. “Public safety is always a primary concern and hopefully today’s action will alleviate a potential hazard.”

The Department’s recommendation came after a recent traffic engineering investigation, as part of an ongoing safety program.
